PROFESSIONAL STATEMENT OF QUALIFICATIONS

January 2009

Borbas Surveying & Mapping, LLC is a highly educated and experienced company. Surveying personnel at Borbas hold college degrees specifically in surveying, and all continue their education to keep pace with fast changing technology and legislation. Borbas surveyors are active members and leaders in Professional Surveying and Mapping Societies and related organizations. We believe that, by maintaining high educational standards and through well-rounded experience, we are able to provide outstanding service that fulfills and exceeds our clients' expectations. Our company utilizes and maintains the latest surveying tools and equipment such as Network Connected and Corrected RTK GPS, robotic and reflectorless total stations (remote scanning), digital levels and software. All of our surveyors are proficient in both field and office operations. Each of our field vehicles is equipped with mobile computers which are connected into the main company system via a wireless internet connection; thereby allowing downloading and accessing the latest information at all times. Team members hold current OSHA HAZWOPER certifications, have Red Cross safety certifications, are railroad safety certified, marine safety certified and hold Federal TSA/Transportation Worker Identification Credentials. Borbas Surveying and Mapping, LLC is a small business registered with the Federal Government (CCR) and a registered Small Business Enterprise approved by the New Jersey Commerce Commission Office of Business Services.
